

# CSNBOWA DP S75-S85 GRIND

## PROFESSIONAL MULTIPURPOSE SHREDDING SYSTEM

BOWADP S75 & S85, as the other products of the S Series, has been specifically designed for the management of e-waste and its safe disposal, allowing to follow the EOL (End of Life) legislation for electronics and the confidentiality information stored in the electronic or magnetic supports.

Its high level of flexibility allows to reduce not only hard drives and a variety of classified electronic and optical media but also computer chassis, electronic devices and accessories. With the new S75 & S85 is now possible also to shred uniforms and boots, paper folders and even small weapons, plastics and many other type of material making these new models the most flexible shredding solution.

Its design allows an efficient usage and operating cost optimization thanks to its low power consumption, while keeping one of the highest hourly throughput of its category.
